Sorry just working my way through emails now and wanted you both to know that every image from any of the SE Chicago Community Group facilities is up on the G Drive – if something every comes up again and I'm out. Jackie created a folder on the main page.

Yes, that had been my intention, but there was miscommunication. We should delete and retweet, I think.

I apologize thought we were using the picture from the main page of the EPA SH Bell website (<https://www.epa.gov/il/sh-bell-chicago-facility> - the big pile of dust).

I didn't see the link to Photo 2 down in the email chain.

Photo 2 is described as "viewing facility west of PS1 across Calumet River."

That photo is not of SH Bell. It's of a different facility across from SH Bell.

What about photo 2 from https://www.epa.gov/sites/production/files/2017-08/documents/3-1-17_monitor_siting_photo_log_for_web.pdf

It's small and blurry, but it looks like it shows dust blowing around.

It's looking doubtful ARD will find better photos today.

Yeah I can't find any good pictures for a tweet. I have close ups of the filter based monitor but it doesn't show a lot of the facility.

I don't. Molly had a bunch uploaded to the website but I didn't see any great ones.

Sarah or Patrick,

Do you have a different photo that we or HQ could use for an SH Bell tweet?
Thanks.
